

CITY OF CHANDLER

NEIGHBORHOOD RESOURCE GUIDE

Building a Better Chandler One Neighborhood at a Time

Mayor's Message

Having lived in Chandler my entire life, I was privileged to have watched many of our City's neighborhoods develop – particularly in our rapid growth phase in the late 1980s and early 1990s.

Healthy neighborhoods are critical to our long-term success. But as development has slowed and we plan for residential build out, we must now shift the attention to a vision of sustainability.

I encourage you to utilize the resources in this guide. Think of them as your personal blueprint to a flourishing community where families can prosper – now and for generations to come.

Working together, we can achieve all that we desire for our families, for our neighborhoods, and for our City.

-- Mayor Jay Tibshraeny

Think how could we address problems, alleviate suffering, and transform our community!

The purpose of For Our City–Chandler is to coordinate service needs of the City of Chandler and non-profit organizations with the service resources of faith-based communities, employers, business groups, and others in the Chandler area. In recent years many different companies and organizations, both faith-based and non-profit, have undertaken and completed wonderful projects in our community. By posting and coordinating such efforts on the For Our City website, and by improving communication between all those who are involved in community service, the plan is to further streamline what is being done in the community and, at the same time, accomplish even more than would be otherwise possible.

CHANDLER FIRE

Chandler ♦ Arizona

CHANDLER FIRE

Drowning Prevention Campaign

Direct adult supervision is the best way to protect children from drowning. Never leave your child unattended in or near any pool, tub or other body of water.

Remember this phrase: Eye to Eye to Supervise

You can prevent a water tragedy by “being” or “designating” a “Water Watcher.” Always have eye-to-eye contact with anyone you are watching in or around any kind of water, and don’t allow anything to distract you. Your home should also use effective barriers, such as a pool fence, plus self-closing, self-latching and locking mechanisms on gates and doors. Latches need to be out of the reach of children. However, don’t allow barriers such as fences and doors to give you a false sense of security. You should know how to swim and teach age appropriate children to swim. Everyone should learn (CPR).

For more information on the Drowning Prevention Campaign and a complete list of on-line resources such as Water & Pool Safety Tips, Drowning Prevention for Kids, Swim Lessons in Chandler, Pool Fences and more visit www.chandleraz.gov/fire

You can view the Car Seat Clinic Calendar for the most current schedule and locations at www.chandleraz.gov/fire. Call 480.782.204 or email chandlerfire@chandleraz.gov to schedule an appointment.

If you see an unbuckled child in a moving vehicle, call 1-800-505-BABY and be prepared to provide: the license number and state on the car, the city where the violation occurred, and the location of the child (front seat, driver's lap, etc.)

The vehicle owner will receive a letter saying that an unbuckled child was observed, and that the law requires children under five to be properly secured. This is not a ticket, but serves to inform the owner of the vehicle on keeping children safe in a car.
