

PUBLIC SAFETY BOND SUBCOMMITTEE

Police Department Projects

October 9, 2024

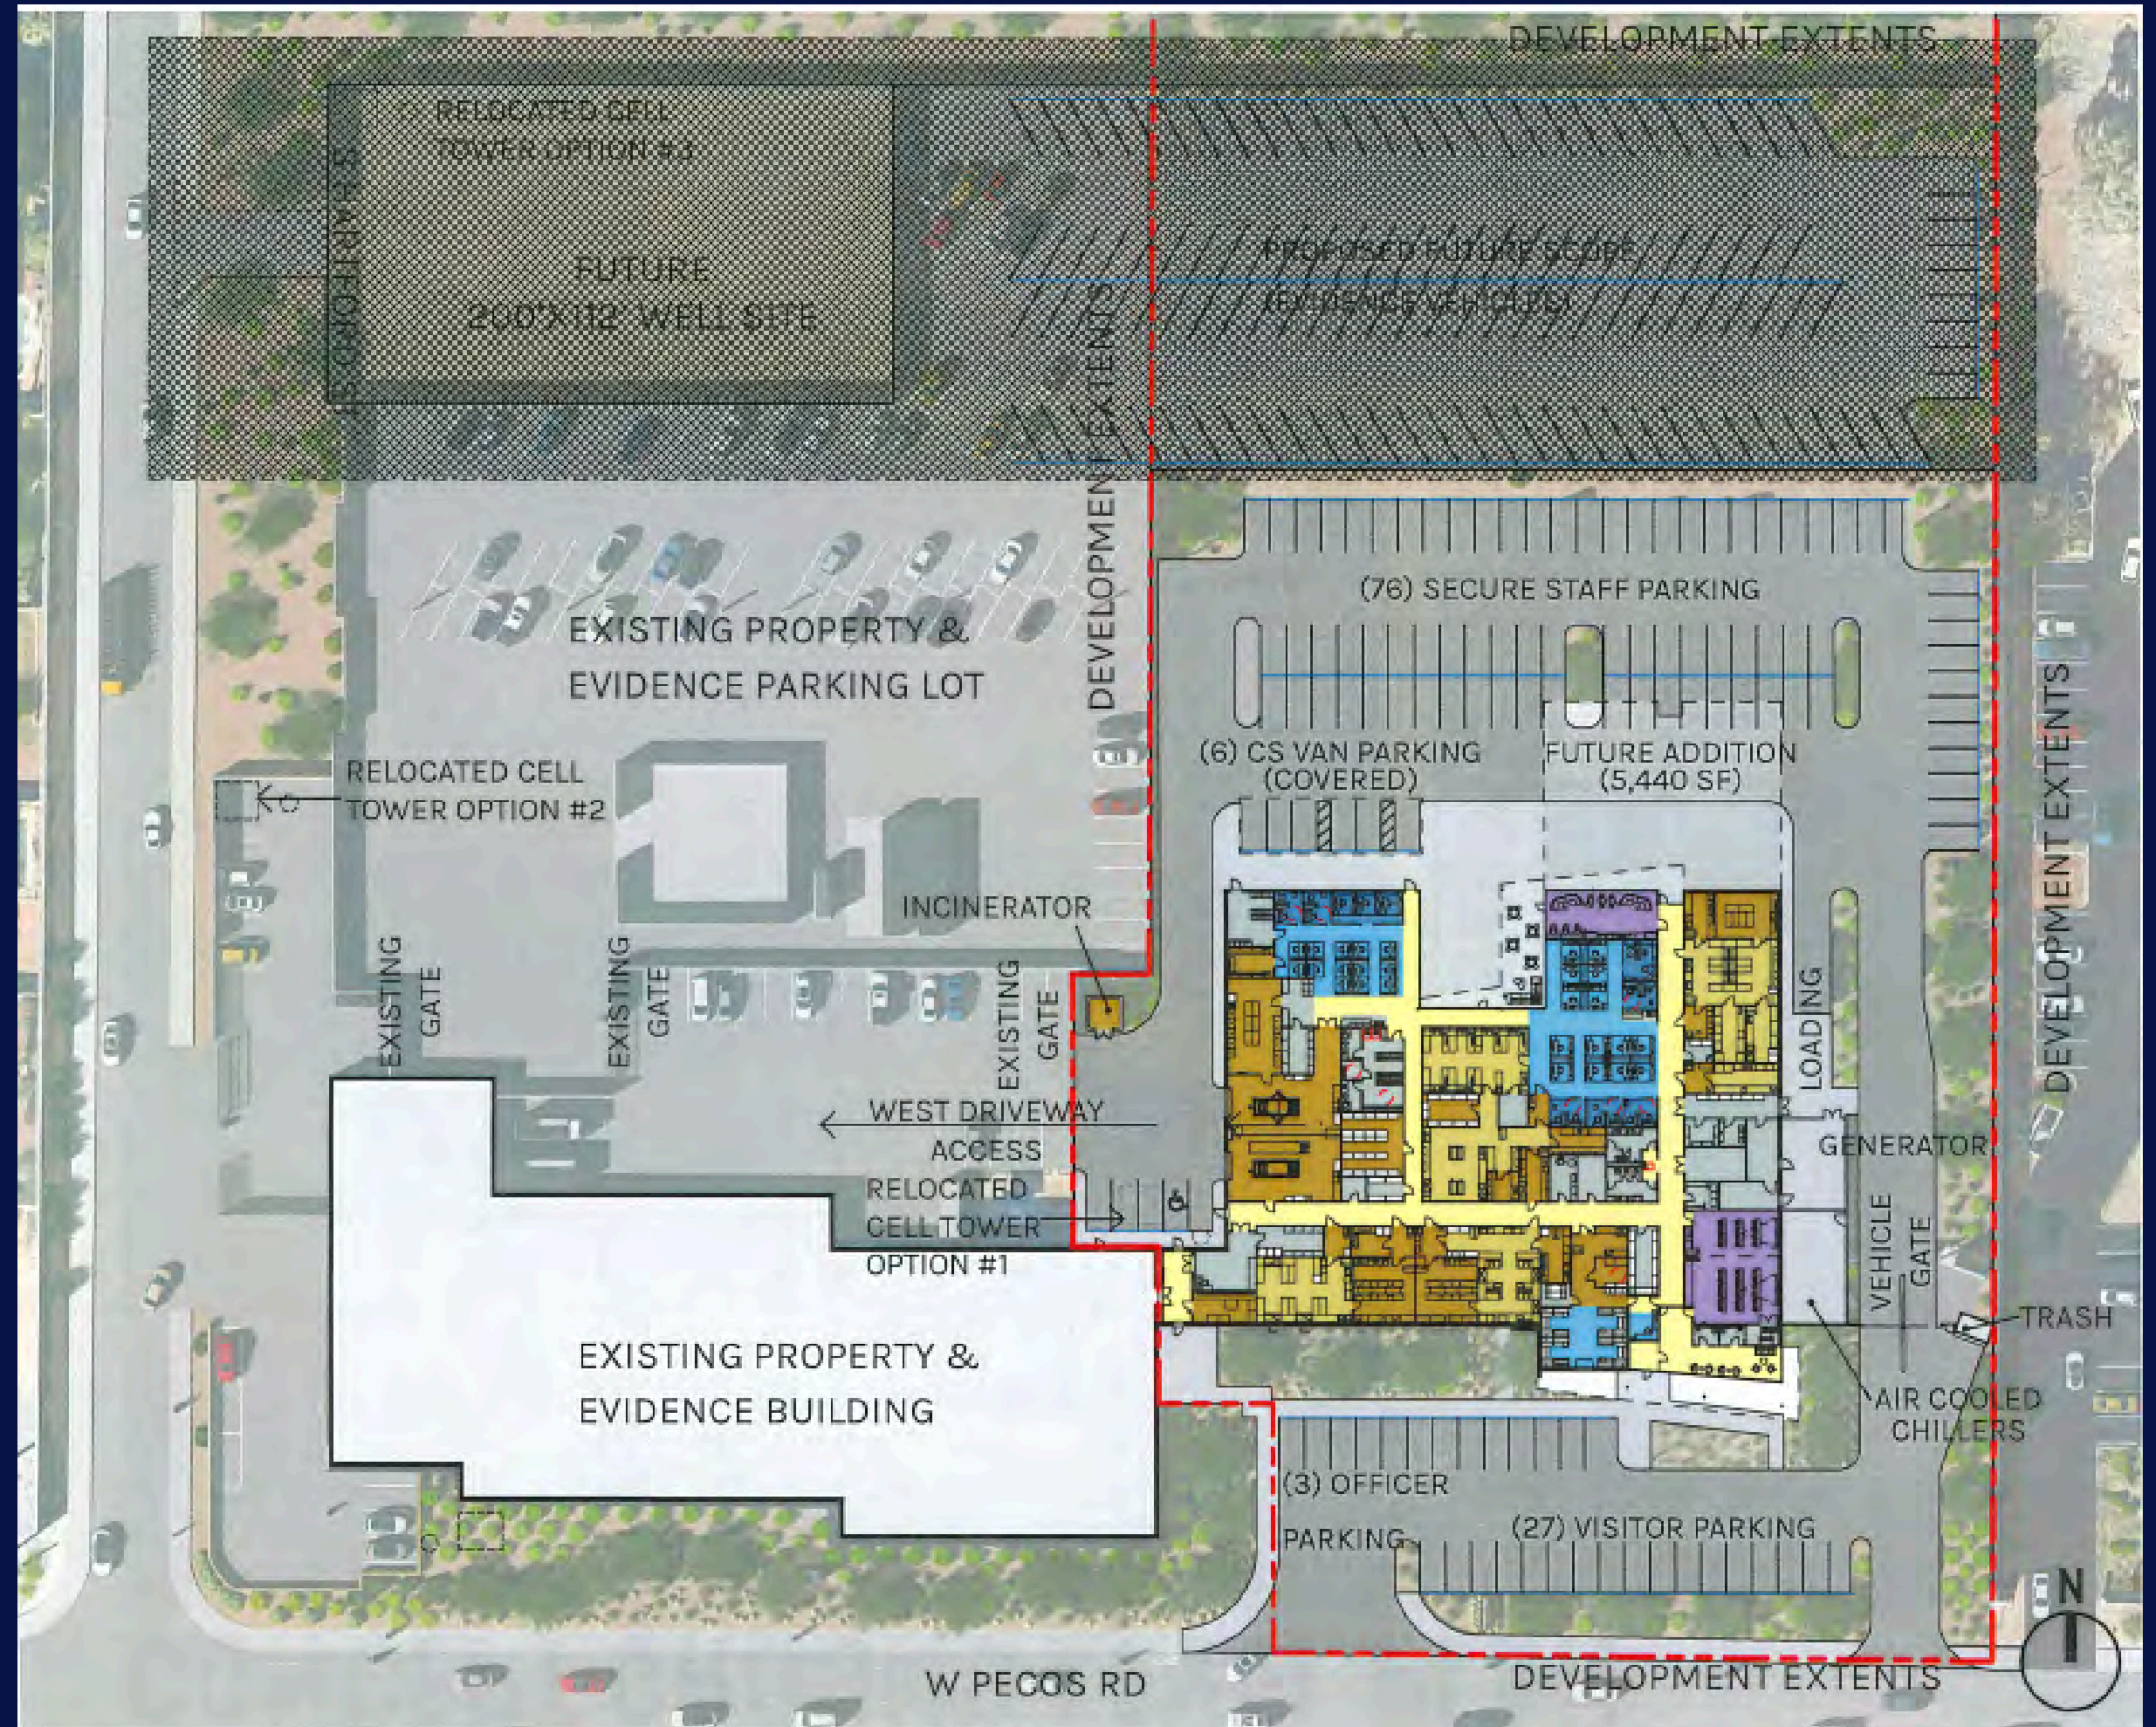

FORENSICS FACILITY SITE

This is an aerial view above 576 W Pecos Rd # 915, Chandler, AZ 85225, our current Property and Evidence facility, and the empty lot just east of the building. This empty lot is the proposed location for a new-build forensics laboratory.

VISION

The proposed site for the new Forensics Laboratory is centrally located, and will help to maintain a secure chain of custody on evidence that needs to be stored in the Property and Evidence building. While this project was approved through the 2021 Bond Election, additional appropriations are required to enable us to build a facility that allows us to continue and improve our high level of service to the citizens of Chandler.

POLICE EMERGENCY VEHICLE REPLACEMENTS

SWAT Tech Freightliner MT55 RV #07295
Replacement Cost \$771,722

Rapid Deployment Freightliner MT55 Vehicle #07294
Replacement Cost \$771,722

Replacing 20-year-old Public Safety Critical Response vehicles is essential due to several factors:

- Wear and Tear
- Maintenance Challenges
- Technological Advancements

Investing in new vehicles addresses these issues, ensuring that our Public Safety teams can operate effectively and safely while leveraging the latest technological advancements.

Armored Rescue Vehicle – Bearcat Vehicle #8881
Replacement Cost \$370,000

Armored Rescue Vehicle TK4 #08214
Replacement Cost \$330,000

SWAT Equipment Vehicle #09631
Replacement Cost \$771,722
