(1) This size meter is only available for landscape use only.

(2) No reclaimed water or wastewater fees for water-only connections (landscape).

For meters ten (10) inches and larger, the water system, wastewater system and reclaimed water development charges shall be based on the following formula:

$$\text{Development Charge} = (3/4 \text{ Charge}) \times (\text{Safe Maximum Operating Capacity (GPM)} / 20(\text{GPM}))$$

System development fees do not apply to reclaimed water meters utilizing reclaimed water

Please contact 480-782-3339 for more information.

Water Meter Fees (Effective 8-3-09)

Properties inside City limits that connect to the municipal water or reclaimed water distribution system shall pay a fee in accordance with the following schedule:

12 - Turbine	15,717.00	22,004.00

All fees as noted outside the City limits are calculated at 1.4 times the fee for installation inside the City limits.

For installations requiring more than 2 service calls, an additional charge of \$97.00 will be assessed per meter inside the City limits and \$135.80 per meter outside the City limits. The charge shall be levied for each return trip necessary to complete the meter installation.

All water meters larger than 2 inches shall have the service line and meter box installed by the subdivider or developer using specifications approved by the City. The subdivider or developer will be responsible to pay the charges associated with the water meter and its installation.

All water meters remain the property of the City. The City is responsible for the maintenance. Applicable City and State taxes are charged on all meters. Please contact Planning and Development with questions.
