

Inclusion

Inclusion!
Some say it's an illusion
But I think it's a fusion
A mix of different people
And all together they equal
Inclusion!

Inclusion!
No matter who you are
You can be a star
If you just include
All the people near you
Then you get
Inclusion!

Inclusion!
But what does inclusion mean
Well to me it seems
That you judge someone on their heart
Not how they dress, act, or if they look the part
If you do that you get
Inclusion!

Inclusion!
No matter who you are
If you're straight or if you're gay
If you're black or if you're white
We'll include you any day!
Because we like
Inclusion!

Inclusion!
Some say it's an illusion
But I think it's a fusion
A mix of different people
And all together they equal
Inclusion!
